

## **Equipment Secretary's Report – Richard Chandler 2020 AGM**

Nothing to report regarding club equipment, no purchases made and there has been no equipment requiring update or replacement.

The sound system has been unavailable in the Main Hall this season and it is still uncertain whether this will be repaired or replaced and in what timescale. In the meantime, and for the foreseeable future, a smaller portable system has been made available by the Civic Hall. This system requires less setup, only our wireless microphones to be plugged in, and in some members' opinions delivers a clearer sound than the main system.

Finally, a thank you to those members that help setup and put away the projector, screen and audio kit on club nights.
