

## **Equipment Secretary's Report 2020-21**

Very little to report on a season which has seen no use of any club equipment other than the laptop to run our pdi competitions.

In September 2020, as part of their redevelopment plan for the building, the Civic Hall requested that the club remove all their kit from the Silver room. An audit of the equipment took place in October 2020 and all essential items were relocated to the under stage area of the Main Hall. All other items were made available to the members and following that disposed of.

No new equipment has been purchased.

The Color Munki appears to have gone awol, the committee have recommended that a replacement should be purchased.
